

Theme—Under the sea 09/06/23

Welsh word of the week—Pysgod

We collected sand shells and rocks and built our own rock pool for all our little sea creatures to live in.

We put on an under the sea show using the fish puppets we made.

Using small parts we created an under the sea picture.

To help save the ocean we needed to sort out the rubbish ready to recycle.

After listening to the story 'Sam who went to sea', we made our own boats using sponges and put them on the water to observe if they would float or sink.

Getting ready for our transition to beech class we dressed up in school uniform and took a ride on the school bus.

We said good bye to our butterflies we watched them have a big drink using its proboscis.
