# How to log into the Choir Google Classroom.

First, log into your school account on google just like you do in class.

Eg. you will have a username which is usually:

first_initial.surname@oakhurst.swindon.sch.uk

and enter your class password (usually two words followed by a number)

Go to the classroom, either by selecting the 9 dots in the corner of your google screen or searching "google classroom" and then selecting "sign into classroom." (You may need to re-enter your login and password)

On the first page you will see your previous classes. Go to the add button at the top right corner…..

……and enter the class code below. Now you will be able to see the google slides with all the resources we use in practice, as well as some lyric sheets.

n4ns5ve

Now you can get practicing!

Remember we will be rehearsing the songs in choir but learning the words is a job to do at home. Good luck!
